Reclaimed Black Ash

Reclaimed black ash flooring balances the best of consistency in pattern with old-growth character. Long, defined grain pattering and strong transitions into and out of knots make it a traditional wood of choice for flooring in distinguished homes.

Reclaimed from barns and other agricultural buildings throughout the Northeast, ash is a regional species with a long and storied history of use as baseball bats, basket weave, and tool handles. Looks especially beautiful with tung oil finish.

Standard Dimensions
2.5" - 8.5" wide planks *(wider w/ special order)*
2' to 12' lengths
3/4" thick, tongue-and-groove

Grain
Straight, with typical old-growth irregularities. Mixed flat and quartersawn.

Color
Ranges from a light brown to a slightly darker brown, generally consistent. Oil-based finishes produce yellow tones.

Character
Knots, checking, wormwood, and occassional nail holes and accompanying mineral stains are present and desirable.

Hardness & Stability
A hard and stable wood. 850lb$_f$ on the Janka hardness scale. ~2.14 pounds per square foot.

Certifications
Qualifies for LEED MRc3, Materials Reuse credit. May qualify for LEED MRc5, Regional Materials credit.
