

'Bright-Planed' Factory Maple

One of North America's most treasured timber resources, maple wood is renowned for its beauty and strength. 'Bright-Planed' Factory Maple flooring is reclaimed from industrial buildings and is surfaced for a cleaner appearance. The surface preserves some rustic overtones: cart tracks, nail holes, dents, and mineral stains can be expected.

Reclaimed 'Bright-Planed' Factory Maple flooring is re-milled with a fresh tongue, groove, and rebates. This floor is extremely hard and ideal for commercial spaces. Sometimes contains beech wood.

Finishes shown at right: Water-based polyurethane (top) & tung oil (bottom).

Standard Dimensions

2" - 5" wide planks

2' to 12' lengths

3/4" thick

Tongue-and-groove & end-matched.

Grain

Straight, sometimes wavy, with typical old-growth irregularities. Mixed flat and quartersawn. Some boards figured with curl or birdseye.

Color

From creamy white to nearly pure bright white, often with gold or reddish hues. Areas of brown/red heartwood occasionally appear. Original surface will be textured and dark, with dents, nail holes, cart tracks, and bruising patterns.

Character

Cart tracks, dents, mineral stains, nail holes, and other original imperfections.

Hardness & Stability

A hard and stable wood. 1,450lb_f on the Janka hardness scale. ~2.75 pounds per square foot.

Certifications

Qualifies for LEED MRC3, Materials Reuse credit. May qualify for LEED MRC5, Regional Materials credit.
